Mazola—the choice of leading hotels, clubs, and railroad dining cars in America!

WOMEN everywhere are finding out that lard is one of the most unsatisfactory of all cooking fats. It is absorbed into the food, making it heavy, soggy and indigestible at times. So much lard is taken up by the food during cooking that it becomes more expensive to use.

Masola is 100% pure vegetable oil. It never penetrates into the food, but sears fish or meat over, and preserves all the good flavors. At the same time, it makes the food more digestible.

You too, should use Masola for all cooking, baking, frying and autéing purposes.

Thousands of people everywhere use Mazola as a delicious salad dressing, in preference to olive oil or any other vegetable oil. It costs about half what an acceptable grade of olive oil would cost.
